Millésime 2015

This vintage started on the right foot with a lowering on May 26th followed by some sunny days and cool nights which helps in the process during the months of June and July.

We have some very light rain during the month of August and the « veraison » was very early during the month.

The wonderful month of September helped us to harvest some beautiful grapes at perfect maturity. Just after a few days in the vats we know that this vintage was going to be incredible.

We used 25% new oak during 12 months in French oak barrels to preserve the finesse and the balance of the tannins.
